Our combined DVM and Veterinary Technician anesthesia and pain management sessions are about learning and applying that knowledge to enhance your practice.

- Developing an individualized anesthetic plan.
- Introduction to how an anesthesiologist thinks around anesthetic equipment and patient monitoring.
- Common co-morbidities in small animal dental patients and associated complications.

Hands-On Anesthesia/Analgesia Workshops with a Team Approach

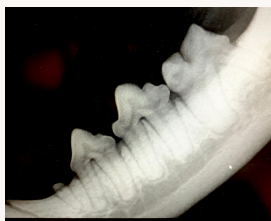

- Master the art of general anesthesia for dentistry procedures from induction and maintenance to recovery.
- Structured planning to develop anesthetic and pain management protocols.
- Group sessions on real-world challenging patient cases will be simulated, making decisions when there are anesthetic complications, and so much more.
- Your questions answered by a veterinary anesthesiologist.
- Guided development on improving your clinic's patient anesthesia management.
- Regional nerve blocks for dentistry-lecture and hands-on practice.

Saturday DVM Only Sessions

8 hours

- Tips and Tricks for Making Extractions Less Like "Pulling Teeth" (Canine and Feline Focused)
- Basic and complex canine extraction lab
- Basic and complex feline extraction lab

The ABCs of Dental Radiology

- Efficiency and diagnostic quality on dental radiographs
- Full-mouth positioning practice on both canines and felines practice

Dr. Craig Willette, DVM, MS, DACVAA

Craig Willette is a 2018 graduate of the Michigan State University College of Veterinary Medicine. Following a year as a rotating hospital intern in Kentucky, Dr. Willette attended The Ohio State University to complete a residency in anesthesiology and pain management, which he completed in 2022. Currently, Dr. Willette is a board-certified veterinary anesthesiologist and works as an assistant professor of anesthesiology and pain management at the Iowa State University College of Veterinary Medicine. He spends time teaching both large and small animal anesthesia to clinical and pre-clinical veterinary students in lecture, laboratory, and clinical formats.

Dr. Brenda Mulherin DVM, DAVDC

Dr. Brenda L. Mulherin graduated from Iowa State University College of Veterinary Medicine. She entered private practice for a few years before returning to Iowa State University College of Veterinary Medicine. In 2014, she entered and completed a Dentistry and Oral Surgery Residency with the University of Wisconsin-Madison. In 2015, she became a Diplomate of the American Veterinary Dental College.

Dr. Mulherin is a full Clinical Professor at Iowa State University and teaches small animal dentistry to veterinary students.

Benita Altier LVT, VTS (Dentistry)

Benita began her career in veterinary technology in 1988 and has worked in small animal general medicine, ophthalmology, equine and llama neonatal care, canine reproduction, and dental specialty.

Benita is the current President of the Academy of Veterinary Dental Technicians and a Member at large for the Arizona Veterinary Technician Association. She has contributed to 2 textbooks on veterinary dentistry and published several articles in professional journals. Through her business, Pawsitive Dental Education LLC, she has provided professional dental instruction and consultation to veterinary hospitals and conferences across the US, Canada, and China.
