

# Pawsitive Dentistry at Enova

What is “Pawsitive Dentistry”? Pawsitive Dentistry is the philosophy that when we learn together, utilizing Pawsitive methods and industry-leading expert instructors, our attendees accomplish amazing things and elevate (no pun intended) the level of care their patients receive.

Our two-day event for veterinarians (veterinary students are welcome too) course should challenge you in ways that will grow your confidence while performing dental procedures and inspire you to better educate the public on why dental care is essential to the quality of life for all animals.

Ease and efficiency of work are among our objectives. Veterinary medicine is controlled chaos at best; let's make dentistry our Zen place!

## What to Expect

### *The Pawsitive Dentistry Team*

Our instructors are accomplished and versed in working with veterinary teams in ways that are truly impactful and helpful. The knowledge you will receive is useful and practical. Our team has experienced many of the challenges you are going through in your practice firsthand, and we listen to your concerns and help you strategize solutions that uniquely fit your needs and your teams. Check out the biographies of our team!

## What You Will Learn

Veterinarians:

- Identification of dental conditions that require treatment
- Dental radiology interpretation
- Regional nerve blocks
- Instrumentation for oral surgery and extractions
- Surgical practice of routine and complex extractions on both dog and cat
- Ergonomics for dentistry
- Ask the expert and more!

## Workstations at Enova

You will be welcomed into a space meant for learning. Enova's dental training facility is equipped with individual workspaces, so each doctor will have a dental delivery unit to utilize while working on dental skills without disruption. Each workstation is equipped with comfortable seating. You will have a set of Enova loupes and light to use, encouraging ergonomic postures and the ability to visualize those tiny roots! During our hands-on oral surgery and pain management labs, each DVM will have a canine and feline specimen. Dental radiographs will be obtained by a trained technician during the surgery lab as needed.

## **Instrumentation**

Having the best instruments is essential to dentistry, so we will provide you with a new oral surgery pack to take back to your practice. Having those instruments in your hospital will immediately enable you to apply your new skills to patients seamlessly.

## **Is it Worth it?**

Well YES! We like to think the value of our program far exceeds the cost; however, we want you to think so, too. Please let us know if you have specific goals or requests during the training. Our team of instructors intends to leave you wanting more; that is a compliment. Your goals for your growth in learning veterinary dentistry are our goals, too!

## **Lunch**

Enova Illumination will be providing lunch each day. Please let us know if you have any specific dietary requests in your registration form. Coffee and snacks will be provided in the morning and afternoon.

## **Proceedings**

Each registered attendee will receive a downloadable copy of the event proceedings.

## **Continuing Education Credits**

Our programs are approved for RACE credits. 16 credit hours for DVMs

## **Need a hotel?**

Enova Illumination has arranged a hotel block for anyone who needs it at the **SpringHill Suites by Marriott Minneapolis West/St. Louis Park for 139.00 USD per night - Last Day to Book: Tuesday, February 24, 2026**

[Book your group rate for Enova - Pawsitive](#)

This hotel is just a few miles from Enova Illumination and has many restaurants within walking distance for dinner.

## **Refund policy**

We know that plans sometimes change. We want to accommodate those changes; refunds will be honored until February 15th. After February 15th, any registered attendee can find someone to take your place at the event. However, refunds after February 15th are not allowed.

Please ensure you can attend on March 27th and 28th (Friday and Saturday) before your purchase, unless you already have someone who would love to swap with you if you cannot attend.

## **Questions**

Contact Pawsitive Dental Education here if you have any questions. We are happy to help!

Benita and the team at Pawsitive Dental Education and Enova Illumination are excited to see you on March 27-28,2026, at Pawsitive Dentistry at Enova!
